## Test Report 16-L025-0002

name and address of client: see address  
product type: material  
delivery condition:  
date of receipt: 06.07.2016  
testing (start/end): 06.07.2016/13.07.2016  
sample taken by: by client  
sample identification: K-3680/ 881 /13- MPA BS  
28.04.2015

### Test Report: Hexabromcyclododecan Isomerengemisch

test method: LA-GC-008.01

### test result

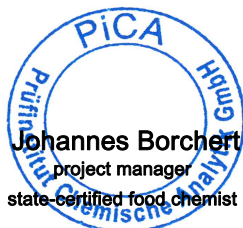

Test Report 16-L025-0002

sample identification: K-3680/ 881 /13- MPA BS 28.04.2015

parameter	CAS-No.	amount	results in	LOQ
Hexabromcyclododecan Isomerengemisch	25637-99-4	<10	mg/kg	10

LOQ: Limit of quantification

The amount in [ ] is a semiquantitative valuation of concentrations between the limit of detection and the limit of quantification.
